MEDAD LSP Empowers Your Library With...

Flexibility

You can create your library's applications and link them to the library system or make library services available through other systems.

Integration

The applications are easily linked to each other, so you can choose the applications, develop them, or adjust their workflow.

AUC Support

From within its own MEDAD LSP, the librarian can directly search, select and download the MARC records from the Arabic Union Catalog (AUC).

Mobile and Mobility

Flexible access through web or mobile, which means freedom of access anytime, anywhere, any device!

Scalability

The platform can be integrated with countless applications, whether inside or outside your organization such as financial system, digital repositories, and more.

Arabic language Support

Best support for Arabic language within the search and discovery experience.

Unmatched Support for the Arabic Language!

Libraries now can overcome the main challenges associated with the Arabic language in terms of search and classification thanks to the Arabic Language Processing features in search and retrieval provided by MEDAD LSP

Why Should You Move to The Cloud?

Through a single cloud platform MEDAD LSP enables you to offer cutting-edge services to your patrons, simplify workflows, and provide superior capabilities for your staff, while saving on operating costs, and eliminating the need for tedious systems upkeep and maintenance such as:

Strong Partnership with Arabic Libraries

For over thirty years Naseej has been working with Arab libraries across the region, hand in hand, to digitally transform their services and leverage the latest technologies to support their efforts to serve their patrons and communities. Today thanks to cloud and managed services, Naseej offers libraries a new generation of solutions that promises to transform the way they serve their communities and frees them to up to focus on what's most important
